A health care choice
that can also help
you save money

Enrollment time is here—it's your chance to compare your health benefit options to find which best fits your budget and health care needs for the year ahead. This could be your year to enroll in an HSA-eligible health plan and open a [Fidelity health savings account \(HSA\)](#).

Here's how an HSA paired with an HSA-eligible health plan can help you save and pay for qualified medical expenses.

HSA-eligible health plans generally have lower premiums and cover preventive care at no cost to you.

A Fidelity HSA® can help you:

- Save money on taxes
- Set aside funds that never expire
- Spend now on qualified medical expenses or invest for your future

Save money and focus on health in the year ahead by considering a Fidelity HSA this enrollment season.

A Fidelity HSA® can help you stretch your health care dollars

It's time to enroll in your benefits and review your health care needs for the year ahead. Your Fidelity health savings account (HSA) and HSA-eligible health plan are a powerful combination to save and pay for qualified medical expenses.

[Review your contributions](#) at any time. And remember, with your Fidelity HSA®, you can:

- Save money on taxes
- Set aside funds that never expire
- Spend now on qualified medical expenses or invest for your future

Did you know you can contribute to your HSA as needed when qualified medical expenses come up? By contributing to your HSA, you're getting federal tax savings on things you would be paying for anyway.
